

ADRV9008/ADRV9009 Widest Bandwidth Integrated RF Transceiver Platform

Fast frequency hopping improves link security and spectrum efficiency

Multichip LO phase synchronization simplifies digital beamforming

First common platform solution for 2G/3G/4G/5G reduces time to market by 50%

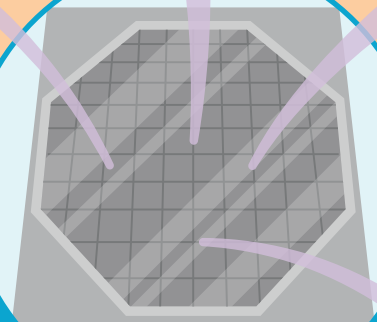

Weather Tracking

Tracking Aircraft

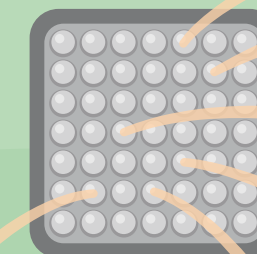

Tracking Non-Cooperating Aircraft

Phased Array Radar

Clear Air

Multimode BTS

Cell Phones and Tablets

Industrial Automation

Automotive

Cell Phones and Tablets
