Re: 1907/2006/EC REACH Position Statement

To Whom It May Concern:

Regulation 1907/2006/EC – the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) addresses substances on their own, in preparations, or as substances in articles. Analog Devices, Inc.'s (ADI) products are classified under REACH as articles with substances not intended for release. ADI has evaluated its component products and shipping materials, and determined that none contain any of the one hundred seventy four (174) currently identified substances of very high concern (SVHC) in excess of the 0.1% (by weight) threshold. Moreover, ADI has evaluated its component products and shipping materials, and has determined that none contain any of the restricted substances stated in the current version of Annex XVII defined in Article 67 of the REACH Directive.

ADI will continue to monitor any amendments to 1907/2006/EC and will perform its due diligence by obtaining necessary evidences from its supply chain regarding compliance of its component products and shipping materials.

The information on ADI products in this letter is based upon information provided by the material suppliers and assembly manufacturers used by ADI to manufacture these products. As such, ADI makes no independent representations or warranties, expressed or implied, and assumes no liability in connection with the use of this information.

Thank you for your interest in ADI products.
