

Product/Process Change Notice - PCN 20_0293 Rev. -

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

PCN Title: Test Site Transfer from Analog Devices Singapore to UTAC Thailand

Publication Date: 30-Sep-2020

Effectivity Date: 02-Jan-2021 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Initial Release

Description Of Change:

Test Site Transfer from Analog Devices Singapore to UTAC Thailand.

Reason For Change:

All parts listed in Appendix A are currently undergoing production testing at the Analog Devices Singapore (ADSG). It was a strategic decision from business standpoint to qualify UTAC, Thailand for electrical testing. After qualification and replication of necessary test capability, UTAC will serve as the primary test site facility to serve future demands upon ADSG site closure in April, 2021. UTAC will use the same tester platform, test programs, monitors, and controls.

Impact of the change (positive or negative) on fit, form, function & reliability:

There will be no impact on fit, form, function and reliability of the product.

Product Identification *(this section will describe how to identify the changed material)*

No change in material. Tested materials in UTAC, Thailand will carry the same catalog part, marking and branding. Traceability to test site is maintained through lot number marking.

Summary of Supporting Information:

No change in material. Tested materials in UTAC Thailand will carry the same catalog part, marking and branding. Traceability to test site is maintained through lot number marking.

Comments

Test correlation and validation has been performed per ADI's standard product site to site and/or platform change correlation procedure. See attached Qualification Report.
