

Product/Process Change Notice - PCN 23_0025 Rev. A

Analog Devices, Inc. One Analog Way, Wilmington, MA 01887, USA

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

Note: Revised fields are indicated by a red field name. See Appendix B for revision history.

PCN Title:	Package Outline Drawing and Data Sheet Revision for Select LFCSP Products in Amkor
Publication Date:	06-Nov-2023
Effectivity Date:	08-Feb-2024 <i>(the earliest date that a customer could expect to receive changed material)</i>
Revision Description:	1) Update Package Outline Drawing List Attachment and Device list. 2) Removed parts.

Description Of Change:

1)Revision of Package Outline Drawing (POD) for LFCSP, particularly on the flange (A3 feature) to include 0.3mm flange thickness as additional option to the 0.2mm flange thickness.

2)Data Sheet revision.

Reason For Change:

Amkor proposed to implement a thicker flange using the Edge Protection Technology (EPT) feature to improve the package robustness. POD and Data Sheet updated to include this option.

Impact of the change (positive or negative) on fit, form, function & reliability:

No impact to fit, form, function, and reliability. The flange (A3) is a reference (REF) feature which has no tolerance, thus change in thickness still complies with JEDEC package outline drawing

Summary of Supporting Information:

No qualification is required. Data Sheet changes will be documented in Product Data Sheets for affected material. See attached for affected Package Outline Drawings and Edge Protection Technology performance data.

Supporting Documents

Attachment 1: Type: Package Outline Drawing
