

Product/Process Change Notice - PCN 23_0090 Rev. A

Analog Devices, Inc. One Analog Way, Wilmington, MA 01887, USA

******* ATTENTION: THIS PCN IS BEING CANCELLED! *******

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

Note: Revised fields are indicated by a red field name. See Appendix B for revision history.

PCN Title:	AD7265 and AD7266 INL Specification Change
Publication Date:	26-Sep-2023
Effectivity Date:	Effective upon publication.
Revision Description:	The planned INL Specification Changes have been cancelled and are no longer required

Description Of Change:

The AD7265/AD7266 INL specification is changing from +/-1LSB to +/-1.5LSB for differential mode, and from +/-1.5LSB to +/-2LSB for single-ended and pseudo differential modes.

Reason For Change:

To improve manufacturability of the AD7265/AD7266 products.

Impact of the change (positive or negative) on fit, form, function & reliability:

This change will have no impact on fit, form, function and reliability of the device.

Product Identification *(this section will describe how to identify the changed material)*

Changeover Datecode will be provided in a later revision of this PCN

Summary of Supporting Information:

Test correlation and validation has been performed per ADI's standard product site to site and/or platform change correlation procedure. See attached summary.

Supporting Documents

Attachment 1: Type: Revised Datasheet Specification
