### Comments

This message is in reference to PDN 24\_0070 related to an external foundry partner Dongbu HiTek deciding to EOL (End of Life) 0.35um BCD Process impacting products you are using. ADI does not obsolete parts that still have customer demand unless driven by exceptional circumstances and understands that customers value the reliability of long-term production assurance.

In this particular case, ADI is taking special measures to take care of customers with the following actions:

-ADI has started building buffers in die bank to minimize the impact to you while you comprehend your needs. Placing the orders as early as possible will help ADI ensure we are building the buffer quantity of the right parts for you.

-We have taken special effort to create pin-to-pin and BOM-to-BOM drop in solutions for select products

-ADI will be flexible in your shipment dates up to Aug 2032

This PDN includes recommended alternatives, Analog.com product pages have links to the PDN under each orderable part number and updates to display alternatives on product pages have been added. We apologize for any inconvenience this product discontinuance may cause and remain committed to minimize impact to you. Feel free to contact your ADI sales representative should you have any questions.
