

Getting Started with SDP-B Controller Board and Evaluation Boards

NOTE

Do not connect the SDP-B board to the PC prior to the completion of the steps outlined below.

Your component evaluation system requires the following:

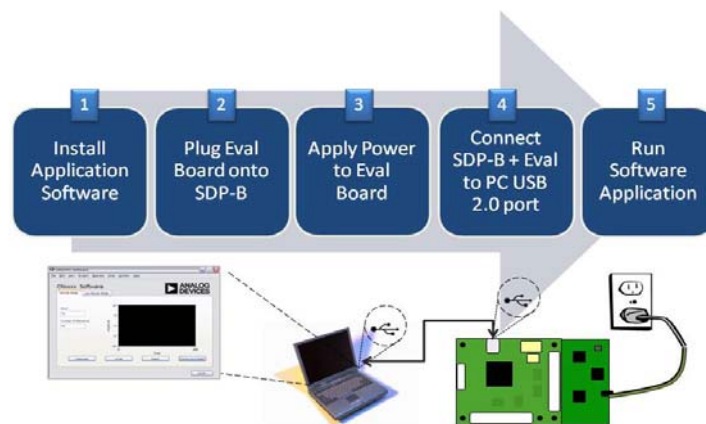

System Demonstration Platform

Controller Board (SDP-B) Package:

One EVAL-SDP-CB1Z board
One A to mini B USB cable

Evaluation Package:

One EVAL-ADXXXXSDZ board
One CD-ROM with application software

For successful SDP-B and Evaluation board installation, follow these steps:

- Step 1: Install the application software provided as part of the component evaluation package.
- Step 2: Plug the evaluation board onto the SDP-B board.
- Step 3: Power the evaluation board.
- Step 4: Connect the evaluation and SDP-B boards to the PC using the USB cable provided in the SDP-B board package.
- Step 5: Start the application software.
