

AD936x-Based Wireless Video Link Outperforms Wi-Fi

RANGE

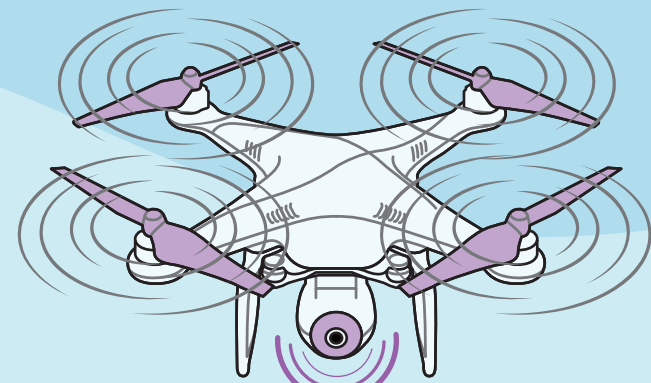

AD936x covers greater than
2 km

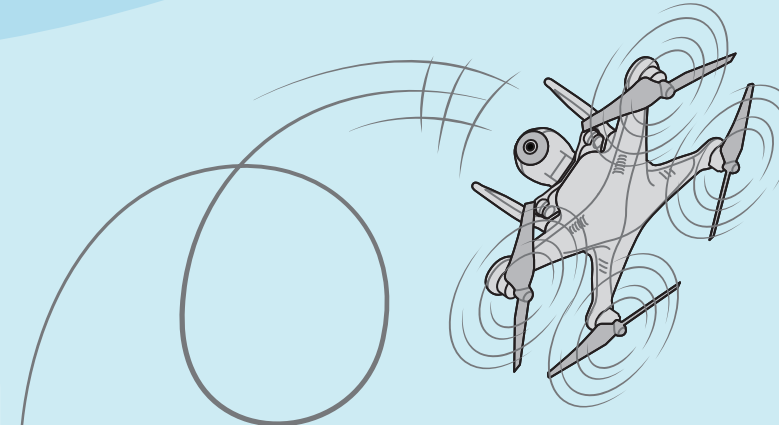

Wi-Fi only covers
200 m to
300 m

RELIABILITY

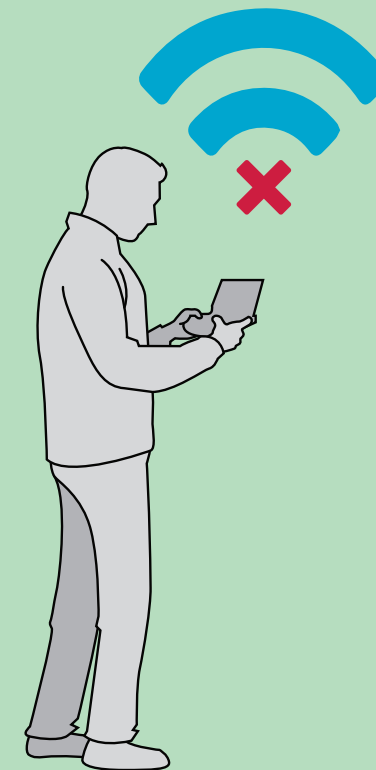

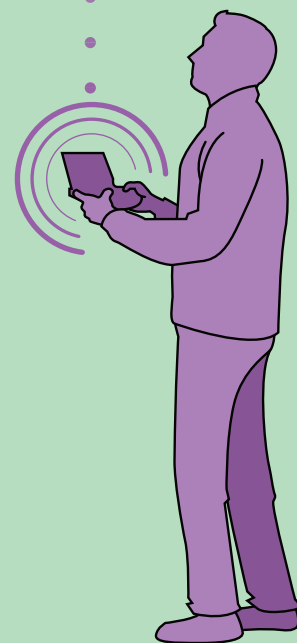

With best-in-class sensitivity and interference rejection,

AD936x can receive even the **weakest signals**

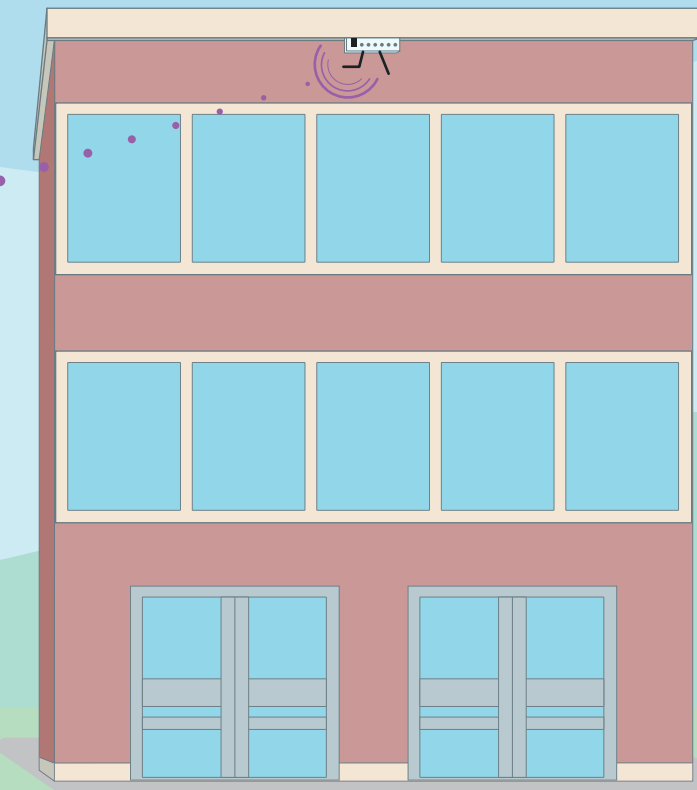

Wi-Fi is crowded out by radio and cellular signals

SECURITY

AD936x enables tighter security with frequency hopping and flexible operating range: **70 MHz to 6 GHz**

Wi-Fi is easy to **hack**
