

Bringing Advanced Connectivity to Health Monitoring

Seamless Integration with HealthConnectKit

Key Benefits:

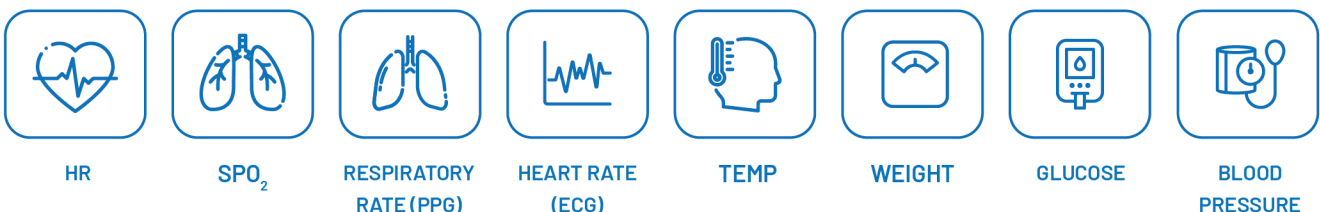

- Customizable Settings**
 Enables the creation of custom mobile applications, providing partners with the ability to control and configure devices for a tailored experience.
- Third Party Device Integration**
 Seamlessly integrate time-synchronized data streams from multiple devices to create a clearer picture of patient health.
- Future-Proof**
 Regular updates to our SDK ensure compatibility with the latest wearable and wireless medical devices, making the solution a future-proof choice for health monitoring.

Key Features:

- Universal Compatibility**
 Connects to weight scales, heart rate monitors, glucose meters, and more.
- Unified Device Integration**
 Enables access to multiple devices simultaneously through a singular, intuitive API.
- Cross-Platform**
 Supports both native Android and native iOS platforms, ensuring seamless functionality across diverse mobile ecosystems.

Elevate Your Remote Patient Monitoring Offerings: Integrate Our Cutting-Edge Health Connectivity Solution

Who We Are

Founded in 1965 with headquarters in Wilmington, MA and global offices, Analog Devices, Inc. (NASDAQ: ADI) is a global leader in sensors and technologies that bridge the physical and digital worlds to enable breakthroughs across many industries.

We combine analog, digital, software, hardware, and systems technologies into solutions that help drive advancements in digital healthcare, mobility, digitized factories, combating climate change, and reliably connecting people with the world.

We have decades of experience in the healthcare industry as a key technology provider and partner for CT, MRI and digital X-ray systems, handheld ultrasound, vital signs monitoring, and much more. Our technology captures clinical-grade data and turns it into simple, trusted insights through our remote patient monitoring platform.

By helping pharmaceutical partners accelerate drug development and medical device partners develop solutions to diagnose and treat patients better, we are helping to improve patient outcomes across the globe and making care possible in more places.

With revenue of \$12.3 billion in FY23 and approximately 25,000 people globally working alongside 125,000 global customers, we ensure today's innovators stay ahead of what's possible.
