

Product/Process Change Notice - PCN 12_0128 Rev. A

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

******* ATTENTION: THIS PCN IS BEING CANCELLED! *******

This notice is to inform you of a change that will be made to certain ADI products (see Material Report). Any issues with this PCN or requirements to qualify the change (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

Note: Revised fields are indicated by a red field name. See Appendix B for revision history.

PCN Title: ADM1192 Datasheet Correction

Publication Date: 05-Dec-2012

Effectivity Date: Effective upon publication.

Revision Description:

Obsolete PCN - no datasheet spec/limit change was required for the ADM1192.

Description Of Change

The ADM1192 datasheet will be changed as follows:
Absolute maximum ratings, SETV pin:
FROM: 30V
TO: 6V

Reason For Change

Correction of text in datasheet only.

Impact of the change (positive or negative) on fit, form, function & reliability

There is no change in the product design or operation of the device therefore there will be no impact on the fit, form, function and reliability of the device. However, care should be taken to ensure previous designs do not exceed the 6V ABS of the SETV pin.

Summary of Supporting Information

The above changes are reflected in Rev. C of the ADM1192 datasheet

Supporting Documents None
