 PRODUCT CHANGE NOTICE

MAXIM INTEGRATED HEREBY ISSUES NOTIFICATION OF CHANGE
THAT MAY AFFECT THE FOLLOWING CATEGORIES:

| | | | | |
|---------------------------------|------------------------------------|--|-------------------------------|--|
| <input type="checkbox"/> DESIGN | <input type="checkbox"/> WAFER FAB | <input checked="" type="checkbox"/> ASSEMBLY | <input type="checkbox"/> TEST | <input type="checkbox"/> ELEC/MECH SPECS |
|---------------------------------|------------------------------------|--|-------------------------------|--|

AFFECTED PRODUCT:

Ordering P/N: (See PN listing XLS in PCN ZIP file)

| | |
|--|--|
| CHANGE FROM: Current assembler is Amkor Korea plant (ATK) for the dimpled QFN packages of 3x3 to 8x8 | CHANGE TO: Moving to assembler location Amkor Philippines (ATP) for the dimpled QFN packages of 3x3 to 8x8 |
|--|--|

JUSTIFICATION: Amkor Korea plant (ATK) is closing their assembly site by end of CY2015. Impacted packages will shut down in stages. The QFN package shutdown is scheduled by end of November 2015 for last build date. Maxim has qualified ATP as a replacement assembly site for QFN, where other QFN body sizes and lead counts are already in production volume.

This move will be effective at the end of December CY2015. There will be no changes to the form, fit, or function. The bill of materials remains the same.

Reference AECQ-100 report R27085.

TRACEABILITY: Maxim Integrated maintains full traceability by device marking, packaging labels and shipment documents.

Maxim Integrated's Change Notification System is designed to keep our customer base apprised of major product, manufacturing, or facility improvements.
