CHANGE FROM: Single sourced HS-PBA Assembly Location,
Amkor Korea (ATK)

CHANGE TO: Moving to HS-PBA Assembly Location, Amkor
Philippines (ATP)

JUSTIFICATION: Amkor Korea plant (ATK) is closing their assembly site by end of CY2015. Impacted packages will shut down in stages. The HS-PBGA package shutdown is scheduled by end of November 2015. Maxim has qualified ATP as a replacement assembly site for HS-PBGA, where other HS-PBGA body sizes and lead counts are already in production volume.

This move will be effective at the end of September CY2015.

Please review the attached reliability report for the leaded and lead-free packages.

TRACEABILITY: Maxim Integrated maintains full traceability by device marking, packaging labels and shipment documents.

Maxim Integrated's Change Notification System is designed to keep our customer base apprised of major product, manufacturing, or facility improvements.
