AFFECTED PRODUCT:

Ordering P/N: (See PN listing XLS in PCN ZIP file)

CHANGE FROM: Current single sourced Test facility is Maxim Integrated Dallas Texas of MAXQ1851 devices

CHANGE TO: Addition of Sigurd Taiwan for testing MAXQ1851 devices.

Expanding our engagement with Sigurd due to the strong demand for Maxim Integrated's devices.

JUSTIFICATION: Additional capacity is required to support demand by using Sigurd's final test equipment configuration that is equivalent to Maxim's internal test configuration. Sigurd has been providing testing for Maxim Integrated products since 2010 and passed qualification on this test platform for other devices in May 2014.

The expansion of Sigurd to test Maxim Integrated automotive/commercial devices provides needed capacity, improves supply chain flexibility, and shortens the supply chain logistics.

TRACEABILITY: Maxim Integrated maintains full traceability by device marking, packaging labels and shipment documents.

Maxim Integrated's Change Notification System is designed to keep our customer base apprised of major product, manufacturing, or facility improvements.
