

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. ADI contact information is listed below.

PIN Title:	Change of Reel Shipping Box for MSL1 Products in Flipchip and LGA Packages
Publication Date:	20-Apr-2026
Effectivity Date:	20-Apr-2026
Revision Description:	Initial Release.

Description Of Change:

ADI will discontinue the use of static shielding bags for non-dry pack reel shipments. These will be replaced with carbon coated shipping boxes that provide equivalent electrostatic discharge (ESD) protection.

Reason For Change:

Harmonization of processes across ADI to ensure consistency in packaging methods.
Environmental benefits, specifically the reduction of packaging waste through the removal of plastic static shielding bags.

Impact of the change (positive or negative) on fit, form, function & reliability:

There is no impact to fit, form, function, quality, or product reliability.
The carbon-coated box is ESD compliant and meets handling and protection requirements for MSL1 shipments.

Summary of Supporting Information:

Detailed change description.

Comments:

THIS IS NOT A PCN. This is an advisory to provide information on product packaging method.
