Modular approval. Power listed is conducted. Grantee is responsible for compliance of this equipment in its final configuration. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. This device is approved for use under mobile and fixed RF Exposure conditions. Separate approval is required for all other operating configurations, including portable configurations with respect to 2.1093, and different antenna configurations. Approved for use with antenna(s) as listed in this filing.
