Re: Red Phosphorus General Statement

To Whom It May Concern:

Analog Devices Inc. (ADI) products, to the best of the Company's knowledge and after good faith inquiry, do not contain Red Phosphorus CAS# 7723-14-0. Although there is only one CAS number that represents other forms of phosphorus as an element, ADI does not use or intentionally add any Red Phosphorus to its products.

The information on ADI products in this letter is based upon the information by the material suppliers and assembly manufacturers used by ADI to manufacture these products. As such, ADI makes no independent representations or warranties, expressed or implied, and assumes no liability in connection with the use of this information.

Thank you for your interest in ADI products.
