Customer Notice: Linear Technology has made a best effort to design a circuit that meets customer-supplied specifications. However, it remains the customers responsibility to verify proper and reliable operation in the actual application. Component substitution and printed circuit board layout may significantly affect circuit performance or reliability. Contact Linear Applications Engineering for assistance.

This circuit is proprietary to Linear Technology and supplied for use with Linear Technology parts.

I/Q Modulator with Current BB Interface  700-1050 MHz
