Evaluating the **AD8253** 10 MHz 20 V/μs, G = 1, 10, 100, 1000, iCMOS Programmable Gain Instrumentation Amplifier

**FEATURES**
- Does not require software to operate
- Runs from dual supply (±7 to ±15 V)
- Gain selection through DIP switches
- Numerous test points for external stimulus
- Signal paths use SMA connectors

**EQUIPMENT NEEDED**
- Dual-output, programmable power supply (±15 V at +50 mA)
- Dual-output function generator
- Oscilloscope
- Banana to grabber test leads
- BNC to SMA coaxial cables
- A small, flat head screw driver or similar device to set DIP switches

**DOCUMENTS NEEDED**
- AD8253 data sheet

**GENERAL DESCRIPTION**

The AD8253-EVALZ user guide details how the AD8253-EVALZ evaluation board evaluates the AD8253. The user guide outlines the basic connections required to evaluate the AD8253 and describes the switch settings available to obtain desired outputs.

Many configuration options are available on the AD8253-EVALZ evaluation board that allow additional input filtering and output filtering if there is a noisy environment (see Figure 6). The logic control is covered with an on-board 5.0 V regulator and a dual in-line package (DIP) switch. However, these logic signals can be overridden and clipped on by way of the on-board test points if the DIP switch has each position set to open.

EVALUATION BOARD SOFTWARE QUICK START PROCEDURES

REQUIRED EQUIPMENT
To perform the start-up operations outlined in this guide, use the following items:

- A dual-output, programmable power supply, such as the Keithley 2230-30-1 supply.
- A dual-channel function generator, such as the LeCroy WaveStation 2012.
- An oscilloscope, such as the LeCroy WaveSurfer 3034.
- A small slotted screw driver, or similar device, to adjust the three DIP switches within the SW3 DIP switch (see Figure 7).
- Two black banana-to-grabber test leads, such as the Pomona 3782-36-0.
- Two red banana-to-grabber test leads, such as the Pomona 3782-36-2.
- Three BNC (male) to SMA (male) coaxial cables

INITIAL CONFIGURATION PROCEDURE
1. Before any connections are made, verify the initial DIP switch configuration must. Set all switches to the off position, as indicated by the silkscreen (see Figure 7).
2. Set the power supply to ±15 V with a current limit of 25 mA each channel.
3. Set the function generator to produce a complementary (in-phase and out-of-phase), 1 kHz sine wave, at a 50 mV differential amplitude signal. Select the high impedance setting on both outputs of the generator. For a 50 Ω signal source, use 25 mV.
4. Ensure the signal generator outputs are off.
5. Connect the power supply leads from the power supply source: +15 V to VIN+, −15 V to VIN−, and Common/Ground to GND.
6. Connect the J3 output signal to any channel on the oscilloscope and set the vertical setting to 500 mV/division.

POWERING UP THE AD8253-EVALZ EVALUATION BOARD
1. Enable the power supply output. Observe the indicated current consumption on the supply. The correct operation does not exceed 15 mA.
2. Turn on the two channels of the function generator.
3. Observe the output of the AD8253-EVALZ evaluation board on the oscilloscope. The output must look similar to Figure 2, showing a signal of 50 mV in amplitude.

4. Set Switch 3 on the SW3 DIP switch to set the gain to Gain (G) = 10. The result must resemble Figure 3.

5. If the output signal is at 500 mV amplitude, set Switch 3 on the SW3 DIP switch to off and set Switch 2 to the on position. (G = 100). The result must resemble Figure 4.
6. Finally, change the signal generator amplitude to a 10 mV differential signal and set Switch 3 on the SW3 DIP switch to the on position to set \( G = 1000 \). The result must resemble Figure 5.

7. If Switch 1 is set to on, the device does not update any changes to the gain.

8. Checking the gains validates the basic operation of the AD8253-EVALZ.

**Legal Terms and Conditions**

By using the evaluation board discussed herein (together with any tools, components documentation or support materials, the “Evaluation Board”), you are agreeing to be bound by the terms and conditions set forth below (“Agreement”) unless you have purchased the Evaluation Board, in which case the Analog Devices Standard Terms and Conditions of Sale shall govern. Do not use the Evaluation Board until you have read and agreed to the Agreement. Your use of the Evaluation Board shall signify your acceptance of the Agreement. This Agreement is made by and between you (“Customer”) and Analog Devices, Inc. (“ADI”), with its principal place of business at One Technology Way, Norwood, MA 02062, USA. Subject to the terms and conditions of the Agreement, ADI hereby grants to Customer a free, limited, personal, temporary, non-exclusive, non-sublicensable, non-transferable license to use the Evaluation Board FOR EVALUATION PURPOSES ONLY. Customer understands and agrees that the Evaluation Board is provided for the sole and exclusive purpose referenced above, and agrees not to use the Evaluation Board for any other purpose. Furthermore, the license granted is expressly made subject to the following additional limitations: Customer shall not (i) rent, lease, display, sell, transfer, assign, sublicense, or distribute the Evaluation Board; and (ii) permit any Third Party to access the Evaluation Board. As used herein, the term “Third Party” includes any entity other than ADI, Customer, their employees, affiliates and in-house consultants. The Evaluation Board is NOT sold to Customer; all rights not expressly granted herein, including ownership of the Evaluation Board, are reserved by ADI. CONFIDENTIALITY. This Agreement and the Evaluation Board shall all be considered the confidential and proprietary information of ADI. Customer may not disclose or transfer any portion of the Evaluation Board to any other party for any reason. Upon discontinuation of use of the Evaluation Board or termination of this Agreement, Customer agrees to promptly return the Evaluation Board to ADI, ADDITIONAL RESTRICTIONS. Customer may not disassemble, decompile or reverse engineer chips on the Evaluation Board. Customer shall inform ADI of any occurred damages or any modifications or alterations it makes to the Evaluation Board, including but not limited to soldering or any other activity that affects the material content of the Evaluation Board. Modifications to the Evaluation Board must comply with applicable law, including but not limited to the RoHS Directive. TERMINATION. ADI may terminate this Agreement at any time upon giving written notice to Customer. Customer agrees to return to ADI the Evaluation Board at that time. LIMITATION OF LIABILITY. THE EVALUATION BOARD PROVIDED HEREUNDER IS PROVIDED “AS IS” AND ADI MAKES NO WARRANTIES OR REPRESENTATIONS OF ANY KIND WITH RESPECT TO IT. ADI SPECIFICALLY DISCLAIMS ANY REPRESENTATIONS, ENDORSEMENTS, GUARANTEES, OR WARRANTIES, EXPRESS OR IMPLIED, RELATED TO THE EVALUATION BOARD INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTY OF MERCHANTABILITY, TITLE, FITNESS FOR A PARTICULAR PURPOSE OR NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. IN NO EVENT WILL ADI AND ITS LICENSORS BE LIABLE FOR ANY INCIDENTAL, SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES RESULTING FROM CUSTOMER’S POSSESSION OR USE OF THE EVALUATION BOARD, INCLUDING BUT NOT LIMITED TO LOSSES, DELAY COSTS, LOST PROFITS OR LOSS OF GOODWILL. ADI’S TOTAL LIABILITY FROM ANY AND ALL CAUSES SHALL BE LIMITED TO THE AMOUNT OF ONE HUNDRED US DOLLARS ($100.00). EXPORT. Customer agrees that it will not directly or indirectly export the Evaluation Board to another country, and that it will comply with all applicable United States federal laws and regulations relating to exports. Governing Law. This Agreement shall be governed by and construed in accordance with the substantive laws of the Commonwealth of Massachusetts (excluding conflict of law rules). Any legal action regarding this Agreement will be heard in the state or federal courts having jurisdiction in Suffolk County, Massachusetts, and Customer hereby submits to the personal jurisdiction and venue of such courts. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement and is expressly disclaimed.
